Sunday eve,
or rather
Monday Morn

Dear Clarence,

The lights have just gone down so it is very hard for me to see to write this.

I want to thank you for the Kinder Garten Magazine which arrived yesterday afternoon.

I think ("our") article looks very well. Don't

I remind you of the story of "Bettie and the bear" how we killed the bear?

When may I come to you, for some more "Carmina"? You must not let me make a nuisance of myself; but I think I know all you told me last Thursday quite perfectly and want another lesson.

Gratefully yours

Grace
